Patriot Aluminum loves large scale projects. Long runs of 5 and 6 inch conduit really get us excited. That's why we invested in a large diameter and large radius producing Wallace Bender. It takes about 30 seconds to bend a 6" Standard 90. Yeah...that's fast.

Everything we do as a company revolves around our Quality Focus. We believe that producing Rigid Aluminum Conduit and Fittings is a Craft. We spend a great deal of time training our Craftsmen how to thread, tap, and chamfer...and how to properly check the product. Why? Because you deserve it, and it matters.
