

Patriot Industries Receives a NECA Showcase Showstopper Award for Patriot Magnum™

Patriot Industries, most recently received a NECA Showcase Showstopper award for their new Patriot Magnum™ Stainless Steel Conduit System designed for highly corrosive or stringent sanitary washdown areas. Patriot Magnum™ couples a complete line of 316 Stainless Steel straps, hangers, reducers, strut components and Enhanced Volume Form 8 Conduit Bodies, with the industry's most complete line of Made In America and NSF Certified 304 or 316 Stainless Steel Conduit, Nipples, Elbows, and Couplings.

“We’ve manufactured Stainless Steel Conduit, Nipples, Elbows, and Couplings in our factory in Louisa Virginia for the last 4 years,” says Tom Click, President & CEO of Patriot Industries. “And now that we’ve received the NSF Certification and increased the size of our offering substantially, we thought it appropriate to give the system the name it deserves...Magnum.”

Isabelle Puryear, Inside Sales Director, commented “this is another great example of Patriot’s willingness to grow and expand, to stay true to our focus on satisfying our customer’s needs. We like to say, Go Big! Go Magnum!”

Jaime Boutwell, Patriot’s Marketing Manager continued, “Patriot had been previously recognized 3 times by Inc Magazine as one of the Fastest Growing Companies in America...but winning the NECA Showstopper is truly a milestone for the company. You should continue to expect big things from the Patriot Team.”
