Low Minimums – Real Time Quotes – Next Day Delivery
10 – 40% Cheaper Than Steel – Huge Installation Savings

Everything we do as a company revolves around our Quality Focus. We believe that producing Rigid Aluminum Conduit and Fittings is a Craft. We spend a great deal of time training our Craftsmen how to thread, tap, and chamfer...and how to properly check the product. Why? Because you deserve it, and it matters.

Patriot Aluminum loves a challenge. When one of our customers needed an Extra Durable UL Approved 15 Foot Conduit, without Couplings...we said, “Sure, why not?” So we changed the Alloy Temper, Threaded 15 Foot Material, added an extra cap, and threw the couplings in a box...no problem.

It's True! Rigid Aluminum Conduit costs less than Rigid Steel Conduit. At 1/3 the weight, it installs faster and provides a huge labor savings. Also, the lower weight means lower freight and fewer shipments.

Save money, time, and effort on your next job by using Patriot Aluminum's Rigid Aluminum Conduit.
